

Homework 1

Due January 28, 9:30am

50 points

CS 2235

Data Structures and Algorithms

Dr. Leslie Kerby

1. Using the CreditCard class:
 - a. Modify the CreditCard class to include a method that updates the credit limit;
 - b. Modify the CreditCard class so that it ignores any request to process a negative payment amount.

Demonstrate that your modifications work. Submit your source code and output screenshots.
